User profile

Within this profile you have insight into your personal company statistics:

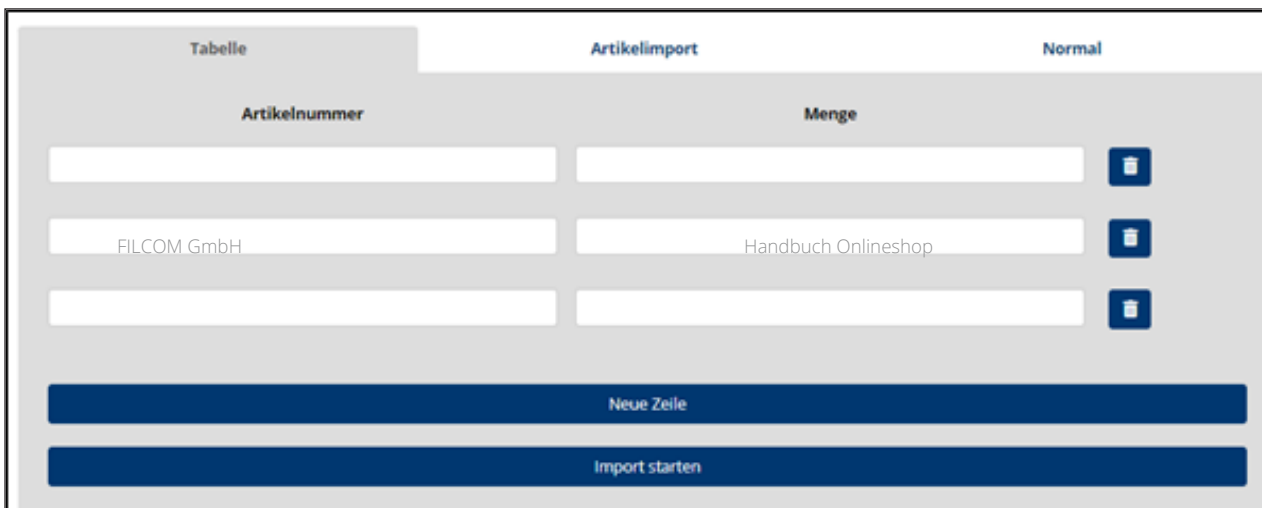

Here you can see your generated turnover, your login data, your top articles and your orders.

Quick entry

Within the fast entry you have three possibilities to find and call up articles:

Table

By entering the article number and the corresponding quantity, the matching article is found by „**Start import**“.

Tabelle

Artikelimport

Normal

Artikelnummer	Menge	
100100	1	
<input type="text"/>	<input type="text"/>	
<input type="text"/>	<input type="text"/>

Liste löschen

PräzisionsDR, durchg. Druckvers. »FUTURA«, BG 1, G 1/4, 0,2-4 bar
Artikelnr. 100100 | Typennr. FU 7604 | Hersteller: RIEGLER

Artikel entfernen

Vergleich
 Merklste

1

This is listed below the table and be from there:

[added to the shopping cart](#)
[put into a watch list, or](#)
[put on a comparison list](#)

Article import

With the article import you can easily import from Escel or CSV lists into the store. The listing and the options within the items are based on the same status as the table.

Normal

The normal fast entry is directly linked to our search. By entering an item number, matching results are delivered based on the search, which are included in the list by clicking on them. The listing and the possibilities within the positions are based on the same status as the table and article import.

Memo list

You have the possibility to create as many watch lists as you like and to save articles in them. This way you can quickly find your frequent article needs and add them to the shopping cart.

Via „[New watchlist](#)“ you can give your watchlist a name and create it.

Bezeichnung	Ersteller	Listentyp	Positionen	Datum	
★ Mustermerklste	Franziska Thomas (Testkunde) franziska.thomas@riegler.de	Benutzermerklste	1	01.06.2022	   

Via the buttons you have the possibility to

-  **Change the name of the watchlist,**
-  **View the watchlist and the items it contains**
-  **Add the watchlist to the shopping cart** (in addition to the already stored items in the shopping cart) or to replace the shopping cart with the watchlist (already stored items will be replaced by the items from the watchlist) or,
-  **Delete the watchlist.**

Comparison list

☰ Menü	📞 Kontakt	📋 Schnellerfassung	★ Merklste 1	📋 Vergleichsliste 2
--------	-----------	--------------------	--------------	---------------------

With the help of the comparison list you can compare the product features of two articles. The tabular comparison allows you to compare perfectly.

If you only want to see the differences at a glance, you can control this by using the eyes:

Artikelvergleich

Vergleichsliste löschen

By clicking on the crossed out eye, you will get a clear view of all the differences between the two items:

Search

Within our search you will be provided with results matching your search entry. If you search corresponds to an identical result, this will appear in the first place with the marking „**top hit**“:

Matching categories are listed flush left of the search. All other search results include the search entry in other product data, such as the type number.

Filterable categories

When searching for articles via the mega menu or through our starting categories, you can expect our product tiles, which go into more and more detail:

Via „[Show all products](#)“ you can reach your goal faster by using filters and suitable sorting:

You can also:

Save the shopping cart - via **„Load“** (appears in the empty shopping cart) you can retrieve your saved shopping carts at another time. Delete items marked with the checkmark from the shopping cart, request items marked with the checkmark.

„Print“ the shopping cart or **„Export“** the shopping cart.

Within the items, under **„Details“**, you can define individual item texts, which will be included in your order:

The screenshot displays a product listing for a precision pressure gauge. The product name is 'PräzisionsDR, durchg. Druckvers. »FUTURA«, BG 1, G 1/4, 0.2-4 bar'. The article number is '100100' and the type number is 'FU 7604'. It is marked as 'lieferbar' (available). The quantity is set to 1, with a unit price of 60.51 €/Stk. The total price is 60.51 €, including 19% VAT (11.5). Below the product information, there is a 'Bestellangaben' (Order details) section with a 'Positionstext' (Position text) input field and a 'Speichern' (Save) button. The interface also includes checkboxes for adding or removing items, and buttons for 'Eigenschaften' (Properties) and 'Angaben' (Details).

On the way **„To the checkout“** you will directly reach the customer journey.

Here you can expect in the:

First step the address input, if it differs from your billing address. You can save as many different delivery addresses as you like and **„load“** them accordingly.

Second step the selection of the shipping option.

Third step the payment method.

Fourth step the specification of individual order details such as order number, desired delivery date and additional details.

Fifth step a summary of all defined details and items.

By marking the checkbox and the associated acceptance of our terms and conditions, you can trigger the order by clicking **„Buy now“**.
