Think flexible instead of going with the flow, tackle instead of talk!

These are the strengths of FILCOM GmbH. In the field of compressed air, FILCOM GmbH has been a reliable partner for companies in Baden -Württemberg for over 20 years for maintenance and repair work on well-known compressor brands and complex compressed air systems. The company is certified according to DIN EN ISO 9001:2015. Together with you, we create feasible steps for smart energy planning for the end customer.

Walking the path together!

- We provide support through trained specialists who have extensive knowledge in the field of compressed air
- Manufacturer-neutral analysis and solutions tailored to the customer's needs
- Recording of useful energy saving potentials incl. an economic consideration

FILCOM[®]
DRUCKLUFT

FINISHING THE GREY THEORY FILCOM CONVINCED!

We support you with our **knowledge from over 20 years of experience** in compressed air technology. With FILCOM GmbH, you have an expert at your side who supports you in all relevant areas. We call this „**360-degree know-how**“ - from which you can benefit as an energy consultant:

 **State-of-the-art measurement technology**
for the provision of usage statistics or the monitoring of a compressed air system e.g. dew point measurement according to ISO 8573-3, particle measurement according to ISO 8573-4

 **Analysis**
We identify weakness and uncover unused potential, which we then present to you which we then present to you in a discussion.

 **Design**
With the latest evaluation software to ensure a high data quality - for a close to optimum economic solution.

 **Leakage management**
Detection and evaluation of compressed air leaks

CONTACT

Mr. Leitenberger would like to shake hands with you directly here, because we always prefer personal contact.

But maybe the time will come soon?
